Thrift Bulletin 48-25

The Office of Thrift Supervision imposes semiannual assessments on thrifts based on three components: its size, its condition, and the complexity of its portfolio (12 CFR Part 502). TB 48-25 adjusts the size component of the savings association rate schedule. These changes are effective for the January 2008 savings association assessment.

The marginal rates of OTS's savings association assessment schedule continue to be indexed to reflect inflation, as measured by the change in the Gross Domestic Product Implicit Price Deflator (GDPIPD) from June 2006 to June 2007. The GDPIPD adjustment is 2.7 percent for 2008. The indexation adjustment will apply only to the first \$18 billion in assets. The assessment schedule reflects an increase in the lowest base assessment from \$2,205 to \$2,265.
