Interpretations 42

April [Interpretations and Actions]
1056, $3 / 29 / 2006$, Letter concludes that a national bank may engage in customer-driven, perfectly matched, cash-settled derivative transactions on reference assets permitted under OCC Interpretive Letter No. 1039 (September 13, 2005), with the exception of emissions allowances, and on frozen concentrate orange juice, low density polyethylene and polypropylene, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.

## May [Interpretations and Actions]

1057, 6/14/2005, Letter confirms the appropriate capital treatment of a multipurpose loan commitment where the borrower has the option to utilize the commitment in one of several ways, including a standby letter of credit.

1058, 4/20/2005, Interagency letter addressing the risk-based capital treatment of structured second mortgages.
1059. 4/13/2006, Letter concludes that a national bank may engage in customer-driven, perfectly matched, cash-settled derivative transactions (such as swaps, options, forwards, caps, floors, collars, and futures) where payments are based on prices of (i) polypropylene: injection molding (copoly) (2,6); (ii) old corrugated cardboard \#11 (OCC 11); and (iii) the Dow Jones AIG Commodity Index, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.

1060, 4/26/2006, Letter concludes that a national bank may engage in customer-driven coal derivative transactions that settle in cash or by transitory title transfer and that are hedged on a portfolio basis with derivative and spot transactions that settle in cash or by transitory title transfer, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.

1061, 4/28/2006, Letter states that loans secured by insured non-negotiable certificates of deposit issued by other institutions do not qualify for the exception in the legal lending limit for loans secured by certain other loans (12 CFR 32.3(c)(3)(i)(B)) nor for the additional lending limit described in 12 CFR 32.3(a) for loans secured by readily marketable collateral.
1062. $4 / 24 / 2006$, Letter grants request of certain affiliated banks of a waiver from Part 12 's requirement that bank officers and employees who make investment recommendations or decisions for customers must report their personal transactions in securities to the bank within 10 business days after the end of the calendar quarter.

## About the Office of the Comptroller of the Currency

## September 2006

Comptroller $\qquad$ John C. Dugan

## Executive Committee

First Senior Deputy Comptroller and Chief Counsel $\qquad$ Julie L. Williams
Chief of Staff and Public Affairs $\qquad$ Mark A. Nishan
Senior Deputy Comptroller and Chief National Bank Examiner $\qquad$ Emory Wayne Rushton
Senior Deputy Comptroller for Large Bank Supervision $\qquad$ Douglas W. Roeder
Senior Deputy Comptroller for Mid-Size and Community Bank Supervision Timothy W. Long
Chief Information Officer $\qquad$ Jackquelyn E. Fletcher
Senior Deputy Comptroller for International and Economic Affairs $\qquad$ Jeffrey A. Brown
Senior Deputy Comptroller for Management and Chief Financial Officer Thomas R. Bloom
Ombudsman $\qquad$ Samuel P. Golden
Executive Officer for Leadership, Learning, and Workplace Fairness $\qquad$ Mark A. Nishan

## Background

The Office of the Comptroller of the Currency (OCC) was established in 1863 as a bureau of the Department of the Treasury. The OCC is headed by the Comptroller, who is appointed by the President, with the advice and consent of the Senate, for a five-year term.

The OCC regulates national banks by its power to:

- Examine the banks;
- Approve or deny applications for new charters, branches, capital, or other changes in corporate or banking structure;
- Take supervisory actions against banks that do not conform to laws and regulations or that otherwise engage in unsound banking practices, including removal of officers, negotiation of agreements to change existing banking practices, and issuance of cease and desist orders; and
- Issue rules and regulations concerning banking practices and governing bank lending and investment practices and corporate structure.

The OCC divides the United States into four geographical districts, with each headed by a deputy comptroller.

The OCC is funded through assessments on the assets of national banks, and federal branches and agencies. Under the International Banking Act of 1978, the OCC regulates federal branches and agencies of foreign banks in the United States.

## The Comptroller

John C. Dugan was sworn in as the 29th Comptroller of the Currency on August 4, 2005. Prior to his appointment as Comptroller, Mr. Dugan was a partner at the law firm of Covington \& Burling, where he chaired the firm's Financial Institutions Group. He specialized in banking and financial institution regulation. He also served as outside counsel to the ABA Securities Association. He served at the Department of the Treasury from 1989 to 1993 and was appointed assistant secretary for domestic finance in 1992. While at Treasury, Mr. Dugan had extensive responsibility for policy initiatives involving banks and financial institutions, including the savings and loan cleanup, Glass-Steagall and banking reform, and regulation of government-sponsored enterprises. In 1991, he oversaw a comprehensive study of the banking industry that formed the basis for the financial modernization legislation proposed by the administration of the first President Bush. From 1985 to 1989, Mr. Dugan was minority counsel and minority general counsel for the U.S. Senate Committee on Banking, Housing, and Urban Affairs. There he advised the committee as it debated the Competitive Equality Banking Act of 1987, the Proxmire Financial Modernization Act of 1988, and the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

Among his professional and volunteer activities before becoming Comptroller, he served as a director of Minbanc, a charitable organization whose mission is to enhance professional and educational opportunities for minorities in the banking industry. He was also a member of the American Bar Association's committee on banking law, the Federal Bar Association's section of financial institutions and the economy, and the District of Columbia Bar Association's section of corporations, finance, and securities laws. A graduate of the University of Michigan in 1977 with an A.B. in English literature, Mr. Dugan also earned his J.D. from Harvard Law School in 1981.

The Quarterly Journal is the journal of record for significant actions and policies of the OCC. It is published four times a year, based on data released in March, June, September, and December. The Quarterly Journal is first released on the Web at www.occ.treas.gov/qj/qj.htm, and then, by subscription, on the CD-ROM Quarterly Journal Library, a cumulative collection starting with volume 17. The Quarterly Journal includes the condition and performance of commercial banks, statistical tables on the performance of FDIC-insured banks and OCC data on bank corporate structure, policy statements, decisions on banking structure, appeals to the ombudsman, links to selected speeches and congressional testimony and interpretive letters, summaries of enforcement actions, and other information of interest in the administration of national banks. Please send your comments and suggestions to Rebecca Miller, senior writer-editor, by fax to (202) $874-5263$ or by e-mail to quarterlyjournal@occ.treas.gov. Subscriptions to the Quarterly Journal Library CD-ROM are available for $\$ 50$ a year by writing to Publications-QJ, OCC, Attn: Accounts Receivable, MS 4-8, 250 E St., SW, Washington, D.C. 20219.

Please make your check payable to the Comptroller of the Currency. Payments by check will be converted into an electronic fund transfer. Please read the following notice on the reverse of this page (also at http://www.occ.treas. gov/NoticePaymentbyCheck.htm) if you are paying by check.

For advice or information about availability, or for an urgent need for a publication, please call OCC Publications Control at (202) 874-4960.

Thank you for your interest in the Quarterly Journal. We welcome your comments on how to make this publication more informative for you. We are particularly interested in your comments on the usefulness of the information and its presentation. Please send your comments to Rebecca Miller, Senior Writer-Editor, OCC Publishing Services, by fax at (202) 874-5263 or by e-mail at quarterlyjournal@occ.treas.gov.

## Notice to Customers Making Payment by Check

Authorization to convert your check: If you present a check to make your payment, your check will be converted into an electronic fund transfer. "Electronic fund transfer" is the term used to refer to the process in which a business or government agency electronically instructs your financial institution to transfer funds from your account to its account, rather than processing your paper check. By presenting your signed check to the OCC, you authorize the agency to copy the check and to use the account information from the check to make an electronic fund transfer from your account for the same amount as the check. If the electronic fund transfer cannot be processed for technical reasons, you authorize the OCC to process the copy of your check.

Insufficient funds: The electronic fund transfer from your account will usually occur within 24 hours, which is faster than a check is normally processed. Therefore, make sure sufficient funds are available in your checking account when you send your check to the OCC. If the electronic fund transfer cannot be completed because of insufficient funds, the OCC may attempt the transfer two additional times.

Transaction information: The electronic fund transfer from your account will be on the account statement you receive from your financial institution. However, the transfer may be in a different place on your statement than the place where your check entries normally appear. For example, it may appear under "other withdrawals" or "other transactions." You will not receive your original check back from your financial institution. For security reasons, the OCC will destroy your original check, but it will keep a copy of the check for record keeping.

Your rights: You should contact your financial institution immediately if you believe that the electronic fund transfer reported on your account statement was not properly authorized or is otherwise incorrect. Consumers have protections under a federal law called the Electronic Fund Transfer Act for an unauthorized or incorrect electronic fund transfer.

## Condition and Performance of Commercial Banks

## Second Quarter 2006

A favorable economic environment supported continued high earnings at national banks in the second quarter of 2006. Return on equity reached a near-record 16.4 percent, adjusted for the effects of recent mergers (unadjusted return on equity was 13.7 percent). Net income grew briskly, up 14 percent from the second quarter of 2005, double the pace of growth in the previous year, as Table 1 shows.

Table 1—Earnings growth driven by noninterest income, slower growth in expenses

| National banks | Major income components (Change, \$ millions) |  |  |  | Excluding five largest banks$\begin{array}{\|c\|} \hline \text { 2005Q2-06Q2 } \\ \text { \% Change } \end{array}$ |

| Net income | 1,251 | 7.1\% | 2,693 | 14.3\% | 4.8\% |

Source: Integrated Banking Information System (OCC)
Data are merger-adjusted and held constant for banks operating as of June 30, 2006. The five largest national banks are JPMorgan Chase, Citibank, Bank of America, Wachovia, and Wells Fargo.

Noninterest income showed particular strength, driven by three major items: trading gains, which came from just a few companies, and accounted for 60 percent of the increase; servicing fees ( 15 percent), linked to the slowdown in mortgage refinancing; and securitization ( 7 percent), much of it from credit cards. Slower growth in noninterest expenses also contributed to earnings growth, in part related to the decline in litigation expenses from a few large banks. Net interest income barely increased year-over-year, the result of a continued slide in net interest margin at large banks. Provisioning expenses declined slightly from the previous year.

The picture looks different if the five largest national banks are excluded, as shown on the right side of Table 1. Without the big five, net income rose only 5 percent, instead of 14 percent; also, net interest income was relatively more important, and noninterest income relatively less important. Provisioning expenses also become more important, as rapid growth in this area cut into net income. Without the big five, noninterest expenses rose faster than for the entire system, though at a rate well below the long-term average.

One important force driving bank earnings over the last decade has been the growing share of credit in the economy. Today's economy now operates with more debt per unit of output than it did in the early 1990s: private nonfinancial debt, for example, rose from 122 percent of gross domestic product (GDP) in 1993 to 170 percent of GDP in 2005. A key element driving this increase

Figure 1—Banks' share of mortgage market up; other areas down

[^0]in credit has been the growth of the mortgage market, defined broadly to include home equity and commercial loans backed by real estate, construction and land development loans, as well as residential mortgage loans. Over the same 12-year period, total mortgage debt rose from 60 percent to 95 percent of GDP.

Figure 1 shows that banks have increased their share of this growing mortgage market. The dotted line shows the share of total outstanding mortgage-backed debt (including mortgage-backed securities) held by banks; this does not include originations; if originations were included, the share would rise considerably. This share has moved up consistently over the last three decades, at the same time that banks' share of other credits, shown by the solid line, has fallen.

Earnings have remained high for most of the last decade because banks have been able to take advantage of their growing share of the fast-growing mortgage market to keep loan volume high. Figure 2 shows that loan growth in the real estate-related subsectors has remained well above the long-term average for these categories over the last four years. From 2003 to the second quarter of 2006, loans for nonresidential real estate, multifamily real estate, and residential real loans grew nearly three percentage points faster than their long-term averages; over the same period, construction loans grew at a remarkable 29 percent annually, 20 percentage points above the longterm average. Rapid growth in these categories allowed total loans to grow at 10.7 percent annually over the same period, more than three percentage points above their long-term average. Data

Figure 2—Real estate-related loans continue to grow

Source: Integrated Banking Information System (OCC)
Long-term average is annual average growth from 1991-2002. Residential real estate is 1 - to 4 -family and home equity loans.

## CONDITION AND PERFORMANCE OF COMMERCIAL BANKS

from the last few quarters show a pronounced slowing in home equity lending at banks, though first mortgage lending has continued to grow through August, according to the Federal Reserve Board.

Capitalizing on mortgage loan growth has allowed banks to keep earnings high. Until recently, strong growth in core deposits provided the funding to cover the expansion in lending. Figure 3 illustrates the connection between interest rates and the attractiveness of core deposits. When short-term interest rates are low, here indicated by the federal funds rate, shown in the solid line, bank customers have little incentive to seek higher rates elsewhere, and core deposit growth tends to be strong. This is certainly evident in the period from the beginning of the recession in 2001 until mid-2004, when the drop in the federal funds rate stimulated an acceleration in core deposits. This trend reversed itself when the Federal Reserve Board (Fed) began ratcheting interest rates back up in 2004. August 2006 data from the Fed shows core deposit growth slipping back to 3 percent year-over-year, well below the long-term average of around 6 percent.

At the same time, continued strong loan growth (9 percent year-over-year according to the Fed's August data) means that banks now face liquidity pressure. The recent falloff in core deposit

Figure 3-Rise in short-term rates crimps deposit growth

Source: Integrated Banking Information System (OCC), Federal Reserve Board/Haver Analytics
Quarterly data through 2006Q2.
growth comes on top of a long-term shift to more expensive funding for banks, as illustrated in Figure 4. For more than two decades, banks have been moving away from traditional core deposits such as checking and small savings deposits, and toward more expensive funding, including transaction accounts, non-money market deposits, and large time deposits. These newer sources are more sensitive to swings in interest rates than checking or small savings deposits, which complicates the problem of finding stable funding. Moreover, when interest rates rise, not only is it harder to attract low-cost deposits, but banks face the additional burden of paying more for the deposits they do attract. Small banks have been somewhat more successful than their larger counterparts at retaining rate-insensitive core deposits. However, even these smaller banks, where large time deposits constitute an increasing share of funding, will face pressure to find adequate low-cost deposits as they continue to try to maintain growth in loan volume.

Figure 4-Bank funding becoming more expensive, less stable

Source: Integrated Banking Information System (OCC)
Rate-sensitive cost core deposits are small time deposits and money market deposit accounts (MMDAs); Rate-insensitive core deposits are transaction and non-MMDAs; All other includes large time deposits and Federal Home Loan Bank advances to national banks.

These trends add pressure to net interest margins, which for large banks now stand at a record low. Net interest margins at small banks have inched up from record lows reached several quarters ago, but remain near the bottom of their historical range.

## CONDITION AND PERFORMANCE OF COMMERCIAL BANKS

## Glossary

## Data Sources

Data are from the Federal Financial Institutions Examination Council (FFIEC) Reports of Condition and Income (call reports) submitted by all FDIC-insured, national-chartered and state-chartered commercial banks and trust companies in the United States and its territories. Uninsured banks, savings banks, savings associations, and U.S. branches and agencies of foreign banks are excluded from these tables. All data are collected and presented based on the location of each reporting institution's main office. Reported data may include assets and liabilities located outside of the reporting institution's home state.

The data are stored on and retrieved from the OCC's Integrated Banking Information System (IBIS), which is obtained from the FDIC's Research Information System (RIS) database.

## Computation Methodology

For performance ratios constructed by dividing an income statement (flow) item by a balance sheet (stock) item, the income item for the period was annualized (multiplied by the number of periods in a year) and divided by the average balance sheet item for the period (beginning-ofperiod amount plus end-of-period amount plus any interim periods, divided by the total number of periods). For "pooling-of-interest" mergers, prior period(s) balance sheet items of "acquired" institution(s) are included in balance sheet averages because the year-to-date income reported by the "acquirer" includes the year-to-date results of "acquired" institutions. No adjustments are made for "purchase accounting" mergers because the year-to-date income reported by the "acquirer" does not include the prior-to-merger results of "acquired" institutions.

## Definitions

Commercial real estate loans-loans secured by nonfarm nonresidential properties.
Construction real estate loans-includes loans for all property types under construction, as well as loans for land acquisition and development.

Core deposits-the sum of transaction deposits plus savings deposits plus small time deposits (under \$100,000).

IBIS-the OCC's Integrated Banking Information System.
Leverage ratio-Tier 1 capital divided by adjusted tangible total assets.
Loans to individuals-includes outstanding credit card balances and other secured and unsecured installment loans.

Net charge-offs to loan and lease reserve-total loans and leases charged off (removed from balance sheet because of uncollectibility), less amounts recovered on loans and leases previously charged off.

Net loans and leases to assets-total loans and leases net of the reserve for losses.
Net operating income-income excluding discretionary transactions such as gains (or losses) on the sale of investment securities and extraordinary items. Income taxes subtracted from operating income have been adjusted to exclude the portion applicable to securities gains (or losses).

Net operating revenue-the sum of net interest income plus noninterest income.
Noncurrent loans and leases-the sum of loans and leases 90 days or more past due plus loans and leases in nonaccrual status.

Nonperforming assets-the sum of noncurrent loans and leases plus noncurrent debt securities and other assets plus other real estate owned.

Number of institutions reporting-the number of institutions that actually filed a financial report.

Off-balance-sheet derivatives-the notional value of futures and forwards, swaps, and options contracts; beginning March 31, 1995, new reporting detail permits the exclusion of spot foreign exchange contracts. For March 31, 1984 through December 31, 1985, only foreign exchange futures and forwards contracts were reported; beginning March 31, 1986, interest rate swaps contracts were reported; beginning March 31, 1990, banks began to report interest rate and other futures and forwards contracts, foreign exchange and other swaps contracts, and all types of option contracts.

Other real estate owned-primarily foreclosed property. Direct and indirect investments in real estate ventures are excluded. The amount is reflected net of valuation allowances.

Percent of institutions unprofitable-the percent of institutions with negative net income for the respective period.

Percent of institutions with earnings gains-the percent of institutions that increased their net income (or decreased their losses) compared to the same period a year earlier.

Reserve for losses-the sum of the allowance for loan and lease losses plus the allocated transfer risk reserve.

Residential mortgage assets-the sum of 1- to 4-family residential mortgages plus mortgagebacked securities.

Return on assets (ROA)—net income (including gains or losses on securities and extraordinary items) as a percentage of average total assets.

Return on equity (ROE)—net income (including gains or losses on securities and extraordinary items) as a percentage of average total equity capital.

Risk-based capital ratio-total capital divided by risk-weighted assets.
Risk-weighted assets-assets adjusted for risk-based capital definitions which include on-bal-ance-sheet as well as off-balance-sheet items multiplied by risk weights that range from zero to 100 percent.

Securities-excludes securities held in trading accounts. Effective March 31, 1994 with the full implementation of Financial Accounting Standard (FAS) 115, securities classified by banks as "held-to-maturity" are reported at their amortized cost, and securities classified a "available-forsale" are reported at their current fair (market) values.

Securities gains (losses)—net pre-tax realized gains (losses) on held-to-maturity and available-for-sale securities.

Total capital-the sum of Tier 1 and Tier 2 capital. Tier 1 capital consists of common equity capital plus noncumulative perpetual preferred stock plus minority interest in consolidated subsidiaries less goodwill and other ineligible intangible assets. Tier 2 capital consists of subordinated debt plus intermediate-term preferred stock plus cumulative long-term preferred stock plus a portion of a bank's allowance for loan and lease losses. The amount of eligible intangibles (including mortgage servicing rights) included in Tier 1 capital and the amount of the allowance included in Tier 2 capital are limited in accordance with supervisory capital regulations.

Volatile liabilities-the sum of large-denomination time deposits plus foreign-office deposits plus federal funds purchased plus securities sold under agreements to repurchase plus other borrowings. Beginning March 31, 1994, new reporting detail permits the exclusion of other borrowed money with original maturity of more than one year; previously, all other borrowed money was included. Also beginning March 31, 1994, the newly reported "trading liabilities less revaluation losses on assets held in trading accounts" is included.

## Recent Licensing Decisions

## Cases Published during April, May, and June 2006

## Community Reinvestment Act (CRA) Decisions

On January 15, 2006, the OCC approved an application to merge Community Bank of Central California, Salinas, California, into Rabobank, National Association, El Centro, California, (Rabobank) under the charter and title of the latter. The OCC received comments from two community organizations expressing concern with the need for fairly priced financial products and services for California's low-income, rural population, including farm workers. Rabobank met with the community organizations and is exploring the development of products that would meet these needs. [CRA Decision No. 134]

## Charters

On March 27, 2006, the OCC granted preliminary conditional approval to an organizing group to establish a new national bank with the title of RepublicBankAz, National Association, to be located in Phoenix, Arizona. The conditional approval was subject to standard conditions imposed on a newly chartered institution. The conditions are enforceable under 12 CFR 1818. [Conditional Approval No. 736]

## Corporate Reorganization

On May 3, 2006, the OCC granted conditional approval for Canyon National Bank, Palm Springs, California, to become a subsidiary of a holding company. The application was subject to the standard conditions and the continued compliance with the commitment letter signed by the Agua Caliente Band of Cahuilla Indians (Tribe) on February 6, 1998. The commitment letter addresses federal banking agency jurisdiction over and the applicability of federal banking laws to the Tribe and activities and transactions between the Tribe and the bank, including an irrevocable waiver of sovereign immunity by the tribe and its affiliates. These conditions are enforceable by 12 CFR 1818. [Conditional Approval No. 743]

## Special Supervision and Enforcement Activities

The Special Supervision Division of the Mid-Size/Community Bank Supervision department supervises critical problem banks through rehabilitation or through other resolution processes such as orderly failure management or the sale, merger, or liquidation of such institutions. The Special Supervision Division monitors the supervision of delegated problem banks, coordinates safety and soundness examinations, provides training, analyzes and disseminates information, and supports OCC supervisory objectives as an advisor and liaison to OCC management and field staff on emerging problem bank-related issues.

This section includes information on problem national banks, national bank failures, and enforcement actions. Data on problem banks and bank failures is provided by OCC's Special Supervision Division and the FDIC's Department of Resolutions in Washington. Information on enforcement actions is provided by the Enforcement and Compliance Division (E\&C) of the Law Department. The latter is principally responsible for presenting and litigating administrative actions on the OCC's behalf against banks requiring special supervision.

## Problem National Banks and National Bank Failures

Problem banks represented less than 1 percent of the national bank population as of June 30, 2006. The number of problem banks, those with a CAMELS rating of 4 or 5 , has declined in recent years. The CAMELS rating is the composite bank rating based on examiner assessment of capital, asset quality, management, earnings, liquidity, and sensitivity to market risk. The total number of problem banks is 11 at June 30, 2006. This low volume of problem banks reflects the stable economy and generally favorable economic conditions of the past several years. No banks have failed in 2006 as of June 30.

[^1]
## Enforcement Actions

The OCC has a number of remedies with which to carry out its supervisory responsibilities. When it identifies safety and soundness or compliance problems, these remedies range from advice and moral suasion to informal and formal enforcement actions. These mechanisms are designed to achieve expeditious corrective and remedial action to return the bank to a safe and sound condition.

The OCC takes enforcement actions against national banks, parties affiliated with national banks, and servicing companies that provide data processing and other services to national banks. The OCC's informal enforcement actions against banks include commitment letters and memorandums of understanding (MOUs). Informal enforcement actions are meant to handle less serious supervisory problems identified by the OCC in its supervision of national banks. Failure to honor informal enforcement actions will provide strong evidence of the need for the OCC to take formal enforcement action. The charts below show total numbers of the various types of informal enforcement actions completed by the OCC against banks in the last several years.

Figure 3-Commitment letters

[^2]Figure 4-Memorandums of understanding

Source: OCC Systems. Note that totals for previous years' completed enforcement actions may be adjusted to reflect revised aggregates.

The most common types of formal enforcement actions issued by the OCC against banks over the past several years have been formal agreements and cease-and-desist orders. Formal agreements are documents signed by a national bank's board of directors and the OCC in which specific corrective and remedial measures are enumerated as necessary to return the bank to a safe and sound condition. Cease-and-desist orders (C\&Ds), sometimes issued as consent orders, are similar in content to formal agreements, but may be enforced either through assessment of civil money penalties (CMPs) or by an action for injunctive relief in federal district court. The OCC may also assess CMPs against banks, and through June 30, 2006 the OCC assessed CMPs against 5 banks.

Figure 5-Formal agreements

Figure 6-Cease-and-desist orders against banks

Source: OCC Systems. Note that totals for previous years' completed enforcement actions may be adjusted to reflect revised aggregates.

The most common enforcement actions against individuals and other institution-affiliated parties are CMPs, personal C\&Ds, and removal and prohibition orders. CMPs are authorized for viola-
tions of laws, rules, regulations, formal written agreements, final orders, conditions imposed in writing, unsafe or unsound banking practices, and breaches of fiduciary duty. Personal C\&Ds may be used to restrict activities, order payment of restitution, or require institution-affiliated parties to take other affirmative action to correct the results of past conduct. Removal and prohibition actions, which are used in the most serious cases, result in lifetime bans from the banking industry.

## Recent Enforcement Cases

Below are summaries of the significant cases completed between January 1 and June 30, 2006:

## A. Actions Involving Anti-Money Laundering/Bank Secrecy Act Compliance

Banks ordered to comply with BSA/AML provisions. The OCC issued cease-and-desist orders by consent against banks for failing to maintain adequate BSA/AML compliance programs, requiring the banks to take remedial action. In the Matter of The Summit National Bank, Atlanta, Ga., Doc. No. 2006-2 (January 19, 2006); In the Matter of Pinebank, N.A., Miami, Fla., Doc. No. 2006-1 (January 25, 2006).

Federal branch ordered to restrict activities. The federal branch of a foreign bank was found to have internal controls weaknesses. The branch consented to an order requiring it, among other things, to restrict its wire transfer and demand draft activities until such time as it implemented an adequate BSA/AML program. In the Matter of Bangkok Bank Public Company Limited, New York, N.Y. (federal branch), Doc. No. 2006-29 (April 20, 2006).

Federal branch ordered to pay penalty. A federal branch of a foreign bank was found to have failed to implement policies and procedures to ensure compliance with BSA requirements, resulting in inadequate BSA systems and controls, and to have failed to file timely suspicious activity reports. The branch agreed to an order requiring payment of a $\$ 150,000$ civil money penalty. In the Matter of Metropolitan Bank \& Trust, New York, N.Y. (federal branch), Doc. No. 2006-19 (March 24, 2006).

Order issued against bank, and bank officer prohibited and ordered to pay fine. The OCC issued a cease-and-desist order by consent against a bank for an inadequate BSA/AML program and for failing on multiple occasions to file suspicious activity reports. In addition, the bank's former president and CEO agreed to the OCC's issuance of prohibition and cease-and-desist orders and assessment of a $\$ 100,000$ civil money penalty for allegedly issuing and concealing millions of dollars' worth of unsafe or unsound loan guarantees to an entity engaged in suspicious activities. The cease-and-desist order required the former president, among other things, to make restitution of $\$ 407,000$ to the bank, reimburse the bank $\$ 100,000$ for expenses, and to indemnify the bank for half of any judgments against the bank related to the worthless guarantees. The two orders replaced an earlier order by consent that required the bank to preserve its books and records and to observe restrictions on making loans and allowing overdrafts on customer accounts. In the Matter of Terrabank N.A., Miami, Fla., Doc. No. 2006-41 (May 9, 2006); In the Matter of Uriel Mendieta, Doc. No. 2006-45 (May 25, 2006).

## special supervision and enforcement activities

## B. Actions to Combat Identity Theft

Actions against bank insiders. The OCC issued two prohibition orders by consent and the Federal Reserve issued a prohibition order in proceedings initiated by the OCC against former bank employees in cases involving loss to bank customers due to identity theft committed by bank employees or by third parties who received confidential customer information from bank employees. One individual was ordered to pay a fine and two were ordered to pay restitution. In the Matter of Onyeacholem Moseri, First North American National Bank, Kennesaw, Ga., Doc. Nos. 2006-36 (March 23, 2006) and 2006-30 (March 30, 2006); In the Matter of Konya M. Owens, First Union National Bank, Charlotte, N.C., Doc. No. 2006-37 (April 26, 2006); In the Matter of Tiffany D. (Holt) Lipscomb, Wachovia Bank, N.A., Charlotte, N.C., Doc. No. 2006-78 (May 23, 2006).

## C. Actions to Enforce Flood Insurance Requirements

Banks ordered to pay fines for flood insurance violations. During the first half of 2006, the OCC assessed civil money penalties by consent totaling $\$ 14,700$ against four banks for failure to comply with federal regulations requiring flood insurance for certain properties located in special flood hazard areas that secure loans made by national banks. The penalties were paid to the National Flood Insurance Program. In the Matter of The Farmers National Bank of Danville, Danville, Ky., Doc. No. 2006-3 (January 18, 2006); In the Matter of First Fidelity Bank, N.A., Oklahoma City, Okla., Doc. No. 2006-20 (March 30, 2006); In the Matter of Fort Knox National Bank, Radcliff, Ky., Doc. No. 2006-31 (April 10, 2006); In the Matter of First National Bank, Fort Collins, Colo., Doc. No. 2006-124 (June 6, 2006).

## D. Actions to Combat Insider Abuse

Former bank president prohibited. The OCC issued a prohibition order by consent against a former bank president for allegedly causing the bank to make loans significantly in excess of the bank's legal lending limit (which led to closure of the bank), creating false bank records, and engaging in a fraudulent wire transaction. Criminal proceedings are ongoing. In the Matter of Mark R. Hardyman, The First National Bank of Blanchardville, Blanchardville, Wis., Doc. No. 2006-8 (January 26, 2006).

Former bank president prohibited and ordered to pay fine. The OCC issued a prohibition order by consent and assessed a $\$ 100,000$ civil money penalty against a former bank president who allegedly caused the bank to make unauthorized payments for personal expenses totaling at least $\$ 388,000$ for himself and his family members. The former president had made restitution of the unauthorized payments, prior to the OCC's action. In the Matter of Eldon B. "Brac" Thoma III, First National Bank of Tullahoma, Tullahoma, Tenn., Doc. No. 2006-64 (June 5, 2006).

## E. Early Intervention for Problem Banks

Second order issued against problem bank. In 2005, the OCC issued a cease-and-desist order by consent against a bank and assessed a civil money penalty by consent against an officer of the bank for alleged violations of laws and regulations governing legal lending limits, insider loans, and affiliate transactions. In 2006, the OCC issued a second cease-and-desist order by consent requiring the bank to restore and maintain its books and records in a complete and accurate condition. In the Matter of The First National Bank of Brewster, Brewster, Minn., Doc. No. 2006-12 (February 28, 2006).

Actions against bank's officers and directors. The OCC issued prohibition orders by consent and assessed civil money penalties of $\$ 5,000$ each against two former senior bank officers for alleged embezzlement of bank funds and for assisting other executive officers' misconduct. The OCC also assessed civil money penalties ranging from $\$ 7,500$ to $\$ 10,000$ against four bank directors for inadequate oversight of the affairs of the bank and for the bank's failure to comply with a 2002 formal agreement with the OCC. The bank has been purchased by another financial institution. Further enforcement actions are pending. In the Matter of Judy R. Davis, First National Bank of Shelby County, Columbiana, Ala., Doc. No. 2006-59 (June 5, 2006); In the Matter of Russell J. Rasco, Doc. No. 2006-61 (May 31, 2006); In the Matter of A. Duncan McFarlane, Doc. No. 2006-60 (June 29, 2006); In the Matter of Martha B. Ferguson, Doc. No. 2006-42 (May 31, 2006); In the Matter of Robert A. Hayes, Doc. No. 2006-43 (May 31, 2006); In the Matter of Joe L. Tidmore, Doc. No. 2006-44 (May 23, 2006).

## F. Fast Track Enforcement Cases

The OCC continued its Fast Track Enforcement program, initiated in 1996, which ensures that bank insiders who have engaged in criminal and other serious acts in banks but who are not being criminally prosecuted are prohibited from working in the banking industry. As part of the Fast Track Enforcement program, the OCC secured eight prohibition orders against institution-affiliated parties from January 1, 2006, through June 30, 2006. Four of these orders incorporated restitution to the appropriate bank for losses incurred, and one of the orders incorporated a civil money penalty. During the same period, the OCC sent out notifications to 67 former bank employees who were convicted of crimes of dishonesty; the letters informed them that under federal law they are prohibited from working again in any federally insured depository institution.

## Appeals Process

## 1. Appeal of Composite and CAMEL Ratings

## Background

The boards of directors of a group of banks, collectively, appealed to the Ombudsman the composite and CAMELS ratings assigned by the supervisory office in the most recent report of examination.

The banks expressed concern that they were being evaluated collectively as a complex institution rather than as less complex, separate, and independent institutions. While all the banks appealed their composite rating, they each appealed different component ratings. The banks requested that the supervisory office apply the rating summary matrix and description on risk management systems relative to a bank's size, complexity, and risk profile as stated in OCC Bulletin 97-1, "Uniform Financial Institutions Rating System and Disclosure of Component Ratings," (January 7, 1997).

## Discussion

The Ombudsman conducted a review of the information submitted by the banks and supporting documentation from the supervisory office. The review included discussions with the banks' senior management as well as with members of the supervisory office.

While the chosen corporate structure is comprised of individually chartered financial institutions, it is evident from these discussions that the bank management teams are significantly influenced by one major principal. Additionally, the organizational structure provides for centralized deci-sion-making and back-room operations. Furthermore, the Ombudsman found that risk management systems throughout the banks warrant significant improvement in the areas of credit administration, nonaccrual accounting, and budget reporting.

## Conclusion

The Ombudsman concluded that the composite and CAMELS ratings as assigned by the supervisory office in the report of examination were appropriate. The Ombudsman encouraged the banks to strengthen their overall risk management practices in the lending area and formalize their planning and budgeting processes to assist them in addressing potential risk exposures.

## 2. Appeal of Memorandum of Understanding

## Background

The bank's board of directors appealed the supervisory office's decision not to remove the Memorandum of Understanding (MOU). The bank has been rated a 2 for the last three years and the board believes that the most recent examination indicates stronger results in all areas except for earnings. The bank is in compliance with all articles except for the article related to earnings performance.

The board believes that they have met the intent of the MOU. While earnings are marginal, they are consistent with the strategic plan which includes expenses associated with the opening of a new branch. The supervisory office believes that compliance with the article regarding the profit plan cannot be achieved until the bank demonstrates sustained earnings.

## Discussion and Conclusions

The Ombudsman conducted a review of the information submitted by the bank and supporting documentation from the supervisory office. The review included discussions with the bank's senior management as well as with members of the supervisory office.

The Ombudsman concluded that the existing MOU had served its intended purpose and should be terminated. The bank's board of directors had demonstrated a commitment to institutionalize a culture of risk controls and processes that will serve the institution well.

## 3. Appeal of a Nonaccrual Status

## Background

The boards of directors of a group of banks, collectively, appealed to the Ombudsman a decision rendered by the supervisory office to place a group of loans on nonaccrual status. The banks also appealed the supervisory office's directive to re-file the Consolidated Reports of Condition and Income (call reports).

The various bank boards disagreed with the nonaccrual status because they consider the loans "well secured" and "in the process of collection" within the context of the call report instructions. The boards requested that the Ombudsman's office review these loans to determine if accrual status on the affected loans is appropriate, thereby negating the need to re-file the call reports.

## APPEALS PROCESS

## Discussion

The Ombudsman conducted a review of the information submitted by the bank and supporting documentation from the supervisory office. The review included discussions with the banks' senior management as well as with members of the supervisory office.

The Ombudsman's analysis specifically focused on the issue of whether the loans were "well secured" and "in the process of collection," as defined in the call report instructions. While the affected loans were collateralized by improved real estate, the value of the collateral was not supported by current independent appraisals or a comprehensive analysis that substantiated the banks' basis of valuation. The appraisals maintained by the banks were outdated and did not provide full assurance that all principal, interest, and accruing fees would be received. Furthermore, the guarantor provided no significant financial support to the credits due to an illiquid cash position and a high level of contingent liabilities.

A legal process was initiated by the borrower, with support from the bank, to have a court appointed receiver control the liquidation of the company. While the Ombudsman acknowledged that a legal process was initiated as of a given quarter, there was no assurance that the loans would be restored to a current status within a reasonable time frame.

## Conclusion

The Ombudsman concluded that the nonaccrual designation assigned by the supervisory office was appropriate. While the banks had taken steps to support "in the process of collection," there was inadequate support for "well secured." The banks were directed to place the loans on nonaccrual as of the same quarter the legal process was initiated and to reverse all accrued and uncollected interest, and other fees. Any interest income recorded since the particular quarter in question should be applied towards principal until the remaining recorded investment in the asset (i.e., after charge off of identified losses, if any) is deemed fully collectible. Additionally, the banks were directed to make the adjusting accounting entries and re-file the affected call reports.

## Speeches and Congressional Testimony

## Interpretations

## April [Interpretations and Actions]

$1056,3 / 29 / 2006$, Letter concludes that a national bank may engage in customer-driven, perfectly matched, cash-settled derivative transactions on reference assets permitted under OCC Interpretive Letter No. 1039 (September 13, 2005), with the exception of emissions allowances, and on frozen concentrate orange juice, low density polyethylene and polypropylene, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.

## May [Interpretations and Actions]

1057, 6/14/2005, Letter confirms the appropriate capital treatment of a multipurpose loan commitment where the borrower has the option to utilize the commitment in one of several ways, including a standby letter of credit.
$1058,4 / 20 / 2005$, Interagency letter addressing the risk-based capital treatment of structured second mortgages.

1059, 4/13/2006, Letter concludes that a national bank may engage in customer-driven, perfectly matched, cash-settled derivative transactions (such as swaps, options, forwards, caps, floors, collars, and futures) where payments are based on prices of (i) polypropylene: injection molding (copoly) (2,6); (ii) old corrugated cardboard \#11 (OCC 11); and (iii) the Dow Jones AIG Commodity Index, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.
$1060,4 / 26 / 2006$, Letter concludes that a national bank may engage in customer-driven coal derivative transactions that settle in cash or by transitory title transfer and that are hedged on a portfolio basis with derivative and spot transactions that settle in cash or by transitory title transfer, provided the bank's examiner-in-charge is satisfied that the bank has adequate risk management and measurement systems and controls to conduct the activities on a safe and sound basis.

1061, 4/28/2006, Letter states that loans secured by insured non-negotiable certificates of deposit issued by other institutions do not qualify for the exception in the legal lending limit for loans secured by certain other loans (12 CFR 32.3(c)(3)(i)(B)) nor for the additional lending limit described in 12 CFR 32.3(a) for loans secured by readily marketable collateral.

1062, 4/24/2006, Letter grants request of certain affiliated banks of a waiver from Part 12's requirement that bank officers and employees who make investment recommendations or decisions for customers must report their personal transactions in securities to the bank within 10 business days after the end of the calendar quarter.

| Totals: | 1,908 | 20 | 22 | 2 | 0 | 12 | 23 | 1,869 |

Notes: The column "organized and opened for business" includes all state banks converted to national banks as well as newly formed national banks. The column titled "merged" includes all mergers, consolidations, and purchases and assumptions of branches in which the resulting institution is a nationally chartered bank. Also included in this column are immediate FDIC-assisted "merger" transactions in which the resulting institution is a nationally chartered bank. The column titled "voluntary liquidations" includes only straight liquidations of national banks. No liquidation pursuant to a purchase and assumption transaction is included in this total. Liquidations resulting from purchases and assumptions are included in the "merged" column. The column titled "payouts" includes failed national banks in which the FDIC is named receiver and no other depository institution is named as successor. The column titled "merged with non-national institutions" includes all mergers, consolidations, and purchases and assumptions of branches in which the resulting institution is a non-national institution. Also included in this column are immediate FDIC-assisted "merger" transactions in which the resulting institution is a nonnational institution.
